WEST MISSION

NEW MODEL COLONY

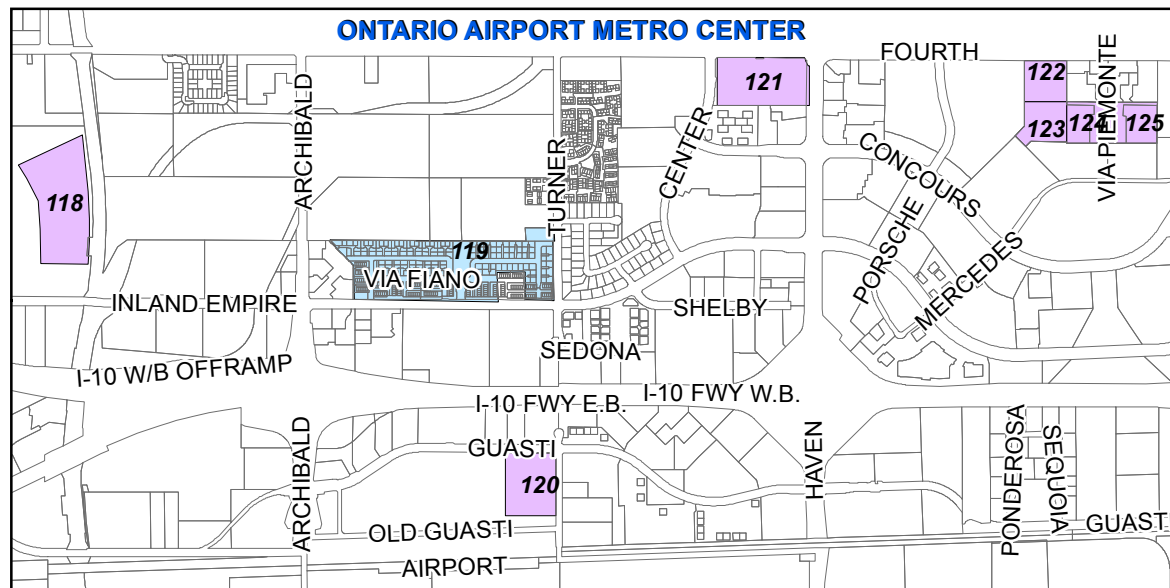

BACKGROUND INFORMATION

Each City in California is required to prepare a Housing Element every 5 - 10 years. The Housing Element must, in part, identify available sites that can accommodate the number and type of dwelling units that have been allocated to the City.

Projects on sites identified in the Available Land Inventory of the Housing Element (and shown on this map) must be consistent with the density range identified in the Land Inventory and the minimum number of units specified in order to be consistent with the City's General Plan (The Ontario Plan). State law requires all projects to be consistent with the General Plan.

If a site is identified on this map as being part of the Inventory, be sure to check the Land Inventory which is found in the appendix of the Ontario Housing Element which can be found at: <http://www.ontarioplan.org/housing-element-technical-report/>
